Dear Parent /Guardian:

The Utah State Legislature, in an effort to address teen suicide, has mandated that every child in the State of Utah in grades 7-12, receive a yearly suicide prevention presentation.

The school psychologist, in collaboration with the counseling department at your student's school, will make arrangements for this presentation to be given in one of your student's classes during his/her regular school week schedule. We anticipate that by the end of the \_\_\_\_\_ school year, every child of secondary age will have had an opportunity to receive this important information.

If you choose to **NOT** have your child receive the information in this presentation, we ask that you return this letter signed and dated to us by \_\_\_\_\_.

Thank you for your cooperation in this regard.

**NO, I do not** wish for my child to be involved in the Suicide Prevention & Intervention class presentation. (If choosing to opt out for your child, please check the box to the left, sign your name, date and return to the school psychologist or counseling department at your child's school.)

If you do approve your child receiving this information, you need do nothing in response.
